RULES FOR POLICE LIKE ARMY AND NAVY

Commissioner McAdoo Will Prepare a Measure that Will Enable the Department to Discipline Guilty Officials and Keep Them Out When Discharged.

Judge Advocate to Be Appointed, and the Findings of Court Martial to Go to the Commissioner and Thence to the Mayor as a Last Resort.

Exasperated by the persistent overturning of cases against convicted policemen by the Court of Appeals, Commissioner McAdoo proposes a sweeping change in the government of his department. His resolution has been hurried by the order for a new trial of Capt. Daniel C. Moynihan, who was dismissed from the force in 1902. The police fund is now in an almost depleted condition owing to the back-pay raids of officers who have been restored by the courts, and the discipline of the entire department is threatened.

Mr. McAdoo announced to-day that he had long talks with several Supreme Court Justices, and the result was that he had finally decided to have a bill presented to this winter's session of the Legislature which will give the Mayor of the city final jurisdiction in all cases against policemen, thus removing the power of review from the higher courts.

PRESENT CONDITIONS EXTREMELY BAD.

Not only has the repeated triumphs of policemen in getting back to their former rank on technicalities, when the charges in the main against them have been absolutely proved, loaded the department with a lot of useless officers in whom the Commissioner will put no trust, but it has proved de-

BISHOPS STAND FOR LABOR RIGHTS

Reporting to Episcopal Convention They Condemn Strike Violence, but Say Wages Must Be Maintained.

BOXED DOCTOR'S EARS IN STREET

Crowd Watched Woman Chastise New Jersey Physician, Who Broke Away and Escaped on a Trolley Car.

BOSTON, Oct. 19.—In the House of Bishops, at the Episcopal Convention to-day, the standing committee on the relations of capital and labor, of which Bishop Henry C. Potter, of New York, is chairman, presented its report. The committee was appointed by the general convention of 1905 to study the purposes of labor organizations, to investigate the causes of industrial disturbances and to hold themselves in readiness to act as arbitrators should their services be desired.

"We are agreed," the report says, "in the conviction that the causes of violence of the past three years in Pennsylvania, in Colorado and in Illinois, are not so much economic as moral. The strike commonly begins in disorder.

"The reason at the heart of it is that the master has as little confidence in the good will of the men as the men have in the good faith of the master. Where distrust and antagonism are well founded, there is nothing for it, so far as the church is concerned, except conversation.

"While, then, we condemn the tyranny and the turbulence of the labor union and call upon the law to preserve the liberty of every citizen to employ whom he will and to work for whom he will, we deprecate the hasty temper which in condemning the errors of the unions condemns at the same time the whole movement with which they are connected.

"The offenses of the unions are as distinct from the cause for which the organization of labor stands as the Inquisition is distinct from the gospel.

"In the face of a prejudice and an hostility for which there are serious reasons we are convinced that the organization of labor is essential to the well being of the working people. Its purpose is to maintain such a standard of wages, hours and conditions as shall afford every man an opportunity to grow in mind and in heart.

"Without organization the standard cannot be maintained in the midst of our present commercial conditions.

"This report is designedly general in its terms, but there is one matter we are constrained to commend in particular to the consciences of Christian people. The employment of children in factories and mills depraves the body, destroys homes and degrades the human stock. Whatever interferes with the proper nurture and education of a child contradicts the best interests of the nation.

"We call, then, on Christian employers and on Christian parents to endeavor after such betterment of the local and general laws as shall make the labor of children impossible in this Christian country."

NEWARK, N. J., Oct. 19.—After hearing the arguments of both sides in the proceedings to prevent the big tobacco merger, Vice-Chancellor Pitney this afternoon dissolved the temporary injunction and dismissed the bill of complaint.

Marines Watch New Warships

PHILADELPHIA, Oct. 19.—In compliance with an order received at the League Island Navy Yard to-day from Washington a detail of marines was sent to Cramp's shipyard to guard the armored cruiser Pennsylvania, which is receiving the finishing touches preparatory to a builder's trial.

On the ways are the armored cruiser Tennessee and the battle-ships Idaho and Mississippi. With the regularly detailed watchers employed by the Cramp company the marines will pay special attention to the Pennsylvania and Tennessee.

This is the first time in the history of either Cramp or the League Island Navy Yard that marines have guarded ships in course of construction.

No official statement could be secured as to the reason for this action, but it is understood to be a precautionary measure in consequence of the recent alleged attempts to disable the battleship Connecticut at the Brooklyn Navy Yard.

ST. REGIS HAS A BOMB MYSTERY

Report Spread that There Was an Explosion in the Famous Hotel Early This Morning, but There is Great Secrecy.

A report went around to-day that an attempt had been made to blow up by dynamite the new St. Regis hotel at Fifth Avenue and Fifty-fifth street. According to the story, a bomb was exploded on one of the upper floors between 8 and 9 o'clock this morning, wrecking several doors, including that leading to Proprietor Haan's own apartments.

This afternoon Mr. Haan denied the story, saying that it grew out of the collapse of a cluster of incandescent-light globes in the lobby at 9 o'clock this morning. The globes fell to the ground with a loud report, he said, frightening a number of the servants, one of them, a woman, running out into the street with loud outcries, which attracted a good deal of attention.

Telephoned for the Police.

In spite of this denial it was learned that early to-day Mr. Haan telephoned to Capt. Lantry, of the East Fifty-first street station, asking him to send Detective Cosgrove to the St. Regis at once. As Cosgrove was not in Wardman Sheehan was sent in his place.

Mr. Haan refused to deal with Sheehan, saying that he knew Cosgrove and wanted him to attend to the business he had for the police.

Sheehan went back to the station-house, and later Mr. Haan talked with Inspector McCluskey, of the Detective Bureau over the telephone.

When the bomb story was put up to McCluskey this afternoon he said he had never heard of it and even denied he had talked over the telephone with Mr. Haan.

Later in the day Mr. Haan was again asked about the bomb story, and this time he had a different explanation to make of it. He said that it grew out of the explosion of four electric light bulbs on one of the upper floors.

There was a lot of excitement, he said.

"You see," he said, "the four bulbs are covered by a colored globe, and they exploded from the heat. There was a lot of excitement, but no damage was done."

"Why did you send for the police?" he asked.

Because some one got away with a piece of silver during the excitement," said Mr. Haan, "and I was going to have him arrested. Afterward I changed my mind."

The discrepancy in Mr. Haan's two stories of what really did cause the excitement at the St. Regis has some folk to suspect that something really did happen there that Mr. Haan didn't care to have known.
